MARRIAGE CEREMONY ILLEGAL.
So Claims Mary J. Fenner, Who Seeks
Separation From Husband.

A case of considerable interest local-
ly, assigned for trial at the superior
court in Putnam next Wednesday, is
that of Mary J. Fenner vs. James E.
Fenner, both of this city. Mrs. Fenner
seeks an annulment of marriage
from Mr. Fenner on the ground that
he is illegitimate, according to
Massachusetts law.
Mrs. Fenner was the widow of Henry
Howard but married Fenner, he
having divorced her, in Massachusetts.
The ceremony between the parties
in the present suit is alleged to
have been performed before the ex-
piration of six months from the time
the defendant secured his provisional
divorce decree in the Massachusetts
court.
Mr. Fenner is well known hereabouts
as a manufacturer of hosiery. Mrs.
Fenner has worked hard and until re-
cently contributed largely to the sup-
port of her husband, working in the
mill and acting as housekeeper for
another old soldier, who recently lost
his third wife.

Handsome Gift for Past Foreman.
Joseph R. Batting, last year's fore-
man of Excelsior hook and ladder com-
pany, presented a handsome solid
gold watch chain recently. On the face
of the chain a ladder and fireman's
hat are engraved and on the reverse
side is the following inscription: "Pre-
sented to ex-Foreman Joseph R. Bat-
ting by the members of Excelsior hook
and ladder company, W. F. D. 1910." It
has long been a custom of the com-
pany to present the retiring foreman
a gift symbolic of the service.

Lake.**

ntry, last summer, having closed a deal
with them recently.
Mr. Johnson will control the large
dance hall, with refreshment and so-
venir booths, as well as the rowboats
on the lake. He contemplates making
a number of needed improvements to
meet the demands of the crowds that
are expected to make frequent trips
to the pretty lake during the coming
season.

Jordan of the H. W. Lane com-
pany, who have the contract for the
entire job, had a force of men at work
digging and cutting the loam away in

It is being dumped between mills Nos.
5 and 8 and will be levelled to a nice
grade and then seeded down for a
fine lawn. The firm intends to push
the work as fast as possible and with-
in a few days it is expected that ma-

Soldiers Brought in Train.
In August, 1900, during the journey
of a company of Austrian engineers
from Vienna to Trieste, the engineer
of the train by some mischance fell
from the engine on the track and was
killed, while the fireman, under stress
of his emotion, fainted away. The
soldiers at once took charge of the
train; and, as a tribute to their ver-
satility, it may be added that they got
it into Trieste five minutes ahead of the
scheduled time.—The Sunday Maga-
zine.

Left Blooming Alone.
"If you only knew what to expect,"
sighed the hostess; "but you don't and
can't. Last month I went out and
bought flowers for my party. Then
my friends all sent me flowers—roses,
carnations, some orchids. This month
I didn't buy myself flowers, expecting
the same, and, my goodness! There
wasn't a single blooming flower in the
flat. Not a one of them sent even a
bud."

To Keep Shoe Laces Tied.
A way to keep the shoe lace tied
is to make a bow in the ordinary way,
then insert a button hook underneath
the center of the bow and draw one
loop and one end through (under-
neath) thus turning the bow practi-
cally upside down. Or draw one loop
through the other and pull the "an-
swering" end, so that the loops are
knotted.

A Warning.
"Fohgive yoh enemies," said Uncle
Eben, "but don't let yoh forgiveness
go so far as to tempt you to gift so-
ciable an trade bosses."

Clothing and Temperature.
The whole theory of clothing and its
relation to temperatures is condensed
by Dr. Wachenheim in the following
paragraph, which will probably sug-
gest where many mysterious colds
come from: "The nude body of a
healthy adult, when at rest, maintains
its normal warmth of 99 degrees most
easily at an air temperature of about
80; this may be called the indifferent
temperature, and is reduced by very
light summer clothing to about 75;
by heavy winter dress to about 65 de-
grees; under these circumstances we
feel just comfortable when lying down
or otherwise inactive."

Where the Blame Belongs.
Man is the artificer of his own hap-
piness. Let him beware how he com-
plains of the disposition of circum-
stances, for it is his own disposition
he blames.—Thoreau.

Few Rubbers Worn in Mexico.
Until very recently rubbers, as ar-
ticles of footwear, were unknown in

so high that few people cared to buy
them.
